

**Contents:**

Prediction Of Wheat Flour Gelatinization Characteristics Using Hyperspectral Imaging Technology	01-07
Assessment Of The Health Safety Of The Fish From The Congo River In Democratic Republic Of Congo	08-14
Serotonin (5-HT) Modulation Model Of Motor Neuron Firing Patterns	15-21
Decoding Phosphorylated Glycans And Molecular Heterogeneity In N-Acetylgalactosamine-4-Sulfatase By High Resolution Mass Spectrometry	22-28
Algae Technology And The Future Of Sustainable Energy	29-32
Antimicrobial activity of Plant derived extracts on disease causing strains of bacteria: Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa.	33-43
Molecular Tools to Control Tomato Leaf Curl New Delhi Virus (ToLCNDV) in Cucurbits	44-47
