

Contents:

HsCRP And Serum Zinc Levels In Type 2 Diabetes Mellitus And Their Correlation With GLYCEMIC Status	01-04
Antimicrobial Activity Of <i>Murraya Koenigii</i> And <i>Zingiber Officinale</i> Plants On Drug Resistant Pathogens Isolated From Clinical Specimens And Preliminary Phytochemical Analysis Of The Crude Extract Preparations	05-10
Apolipoproteins: Risk Assessment Tools For Coronary Heart Disease	11-15
Diagnostic Value Of Resistin And Hepcidin In Neonatal Sepsis	16-21
Adulteration And Its Mitigation By Phytochemical And Anatomical Screening Of Family Liliaceae	22-28
Evaluation Of Rapd Analysis To Differentiate The Genotypes Of 11 <i>Musa</i> Cultivars	29-36
A Review on CRISPR/CAS9 And Its Application in Research, Industry and Health Biotechnology	37-41
Comparison Of Anti-Dandruff Activity Of Synthetic Shampoos And Crude Plant Extracts On Dandruff Causing Isolates	42-46
Enzymatic Analysis Of Activity Of Metal Ions On Soybean(<i>Glycine Max</i>) lipase	47-51
Biochemical Role Of Lipoxygenase In Development Of Off Flavors, Bleaching Of Pigments And Dough Formation	52-57
Chimera of Heat-labile Enterotoxin B chain conjugate with LipL32 and or LipL21 proteins induces strong reactive antibodies in experimental mice	58-68
Assessing the Biopreservative Potential of Bacteriocin against Some Selected Food Pathogens	69-73
Correlation between iron status and thyroid function in betathalassemia major of Iraqi patients	74-77
Green Nanoparticles: Synthesis and Applications	78-83
Effect of Ethanolic extract of Neem & Tulsi for repellency and insecticidal activity against the Adult of <i>Tenebrio molitor</i> (Tenebrionidae)	84-87
MIS Determination of Etoricoxib used in Pharmaceutical Formulations	88-99
