

Contents:

Beyond The Present: Future Research Directions On The Extraction And Fractionation Of Bioactives, With The Focus On Phytochemicals	01-12
Fenominal method for determination of betalactams in milk using mass spectrometry	13-23
Antibiotic Resistance In Local Bacteria Against Household Antibiotic Ointments	24-28
Studies On In Vivo Macropropagation Of Banana	29-34
AI Is A Major Tool In Medical Biotechnology	35-38
Understanding Cellular Transport: An Exploration Of Passive And Active Mechanisms	39-42
Draft Genome Sequencing Of A Gastrodia Elata Pathogen Erwinia Billingiae LS-1	43-45
Analysis Virulence Factor of Staphylococcus Epidermidis and Streptococcus Pyogenes Targeted by Epigallocatechin Gallate (EGCG) Using A Bioinformatic Approach	46-55
