

Contents :

- Stability Analysis of a Three-Dimensional Rectangular Isotropic Plates With Arbitrary Clamped And Simply Supported Boundary Conditions** 01-09
Onyeka, F. C., Okeke, T. E., Nwa-David, C. D.
- Experimental Analysis of Flexural Properties of E-Glass/Epoxy Laminate Composite with Artificial Delamination** 10-18
Dr. Mohammad Sadak Ali Khan, S. Irfan Sadaq, K.M.D.Mazharuddin, Mohammad Aftab Ali Khan
- Evaluation of the Properties of Expansive Soil Using Foundry Sand and Steel Slag** 19-29
H A Vijaya Kumar, H N Ramesh
- Movement From Temporary Site to Permanent Site: A Study of the National Institute of Construction Technology and Management (NICTM) Uromi, Nigeria** 30-36
ISAAC ECHEZONAM ANYIRA
- Compressor Gas Turbine Matching with Reference to Bio Fuel Firing Systems** 37-41
Gopalakrishnan G, Provost
- Improving the Relationship between the Main Contractor and the Subcontractor: Case Study in Egypt** 42-49
Dalia A.kshaf, Mohamed A. Mohamed, Karim M. El-Dash
- Experimental Flow Field Analysis of Internal Spiral Grooving at Different Pitches on Air Cooled Heat Exchanger** 50-56
Nitesh Nikose, Dr Ajay Kumar Singh, Prof. Deepak Patel
