---

**Abstract:** Cucumbers contain lots of vitamins. Vitamin B1, B2, B3, B5, B6, Folic Acid, Vitamin C, Calcium, Magnesium, Potassium, Iron, Zinc and Phosphorus and also fibers. And also it have quality to cure many more diseases such as- Cucumber juice contains a hormone which is needed by the cells of the pancreas for producing insulin which has been found to be beneficial to diabetic patients. Researchers found that a compound called sterols in cucumbers may help reduce cholesterol levels.

**Keywords:** Loo, Vitamins, proteins, nutrients, foam.

---

### I. Introduction

We, know that cucumber have many qualities. Cucumbers are 95 percent water, keeping the body hydrated while helping the body eliminate toxins. Cucumbers have most of the vitamins the body needs in a single day. Don't forget to leave the skin on because the skin contains a good amount of vitamin C, about 10 percent of the daily-recommended allowance. And after releasing of foamy substance there is organic substance obtained is called cucumbitacin.

But there is also quality in cucumber to cure loo and also and in titration in alcohol and many solvents I find active principal of cucumber and its foam that cure loo in 7 to 10 days.

### II. Materials and Methods

Firstly, I used Absolute Alcohol (8.0 ml), Rectified spirit (11.2 ml), Acetone ( 13.5 ml), Ether Solvent ( 15.8) ml, Ether (9) ml, Petroleum ether (10.8)ml, Methyl orange ( 11.4) ml, CuSO<sub>4</sub> (7.0) ml, Water (8.9), Phenolphthalein (12.0). And after 7 days mixing them and find the medicine of loo by Cucumber. And because of it's enzymes and many amino acids just as Cucumbitacin and Vitamin C which is very good for our health. Cucumbers are in the same family as other squashes such as zucchini, pumpkins, watermelon, etc. They have a high water content, which keeps them cool and moist inside. This may be one of the reasons they are such a summer time favourite. It is also good for our health.

### III. Result

As, a result we find medicine of loo by cucumber and by its foam.

### IV. Discussion

We, always try to find the medicine of loo with the help of Cucumber or with its foam and and we find positive result in Cucumber and its foam also but after titration in different given chemicals and solvents . And also always study to cure of loo by Cucumber. And after titration it's foam is more faster than normal cucumber increased. Because it's enzymes worked fast after titration.

#### **Indentations and equations**

It is taken in the 7-15 ml ratios.

#### **V. Conclusion**

Hence, we find the medicine of loo by cucumber and its in foam.
